EXPERIENCE

Embrace-IT (PVT) Ltd, Islamabad — SQA Specialist / Tech Support

Aug 2024 - till now

- Lead QA team to align with project goals under tight deadlines, ensuring comprehensive test coverage.
- Conducted load and stress testing using K6.
- Performed detailed manual testing of new features to verify functionality, usability, and alignment with user expectations.
- Working closely with the technical support team to identify areas for improvement and ensure overall quality standards are met.
- Execute testing on iOS, Android, and web applications to ensure seamless functionality across all platforms.

Geero Management, Rawalpindi — Lead SQA Automation Engineer

Nov 2023 - Aug 2024

- Developed an advanced TypeScript automation framework in Playwright for LegendeHR, with E2E scenarios using Cucumber.js.
- Responsible for scripting, testing, and ongoing maintenance of automation scripts.
- Acted as a client interface for requirement gathering and clarification.
- Developing comprehensive test cases and conducting testing on newly developed software modules.
- Led QA team, providing training, and mentoring team members.
- Created detailed product documentation from scratch.
- Collaborated closely with the Development Team to ensure seamless integration and high-quality software delivery.

Quaid Technologies, Rawalpindi — SQA Automation Engineer

APR 2022 - OCT 2023

- Proficient in writing automation scripts using JavaScript/TypeScript within the Playwright automation framework.

SKILLS

- Software Testing
- Automation Testing
- UI Automation
- API Automation
- Database Automation
- Data Driven Testing
- Manual Testing
- Database Testing
- Performance Testing
- API Testing
- E2E Testing

Languages & Framework

- TypeScript
- JavaScript
- Cucumber
- Gherkin
- Playwright
- Java
- C++
- Selenium WebDriver
- Playwright Recorder
- Katalon Recorder

Testing Tools

- MTM
- JMeter
- Swagger
- Postman

Project Management Tools

- Postman
- Asana
- Trello
- Jira
- TFS

- Skilled in scripting end-to-end (E2E) scenarios using the cucumber.js framework.
- Responsible for scripting, testing, and ongoing maintenance of scripts.
- Act as a client interface for requirement gathering.
- Develop comprehensive test cases and conduct testing on newly developed software modules.
- Managed version control and CI/CD processes, including GitHub, GitHub Actions, and Pull Requests.
- Performed API testing using Postman and JavaScript.
- Mentored the QA team, providing training and guidance.
- Collaborated closely with the development team to ensure seamless integration and high-quality software delivery.

Invotyx, Rawalpindi — SQA Analyst

NOV 2020 - MAR 2022

- Gather and document project requirements to align with client expectations and business goals.
- Perform API testing to validate system integrations and ensure functional performance.
- Execute testing on iOS, Android, and web applications to ensure seamless performance across all platforms.
- Provide User Acceptance Testing (UAT) support to clients and oversee successful project deliveries.
- Create comprehensive project documentation to guide users on system functionality.
- Develop detailed test cases, create test plans, and manage test execution for robust quality assurance.
- Collaborate closely with development teams and stakeholders to address issues, clarify requirements, and support project alignment.

MTBC | CareCloud, Rawalpindi — SQA Engineer

SEP 2019 - OCT 2020

- Led and mentored the team while providing training to new team members.
- Estimated testing efforts for tasks.
- Thoroughly analyzed requirements and devised comprehensive test plans accordingly.
- Performed end-to-end testing on Mobile and Web applications.
- Proactively recommended enhancements during retrospective meetings.
- Performance testing using JMeter.
- Organized daily Bug Triage meetings with the Project Manager and Development Team.

- GitHub

Operating System

- macOS
- Windows

AWARDS

Achievements

Got the Best Team Player Award from Quaid Tech.

RECOMMENDATIONS

MTBC | CareCloud, Rawalpindi — Jr. SQA Engineer

OCT 2015 - JUN 2016

- Executed testing on Android and iOS applications.
- Conducted cross-testing on Web Applications.
- Thoroughly analyzed requirements and crafted tailored test cases.
- Performed Smoke, Sanity, and Regression testing across iOS, Android, and web applications.
- Proactively collaborated with development teams to resolve bugs and implement fixes with minimal disruptions.

EDUCATION

IIUI, Islamabad — MS in Software Engineering

SEP 2016 - AUG 2019

Core Subjects: Software Engineering, Software Quality Assurance, Project Management, Risk Management, Agile Software Development, & Software Requirement Engineering, etc.

IIUI, Islamabad — BS in Software Engineering

SEP 2011 - AUG 2015

Core Subjects: Data Structure, OOP, Database, PM, Operating System, Software Requirement Engineering, Java/C++/Web Base Application Development, Software Quality Assurance, & Object-Oriented Analysis & Design, etc

PROJECTS

Playwright Automation Framework — Playwright, Cucumber, Javascript/TypeScript

I have developed a publicly accessible automation framework on GitHub to help others initiate their automation projects:

[cucumber-playwright-javascript](#): A JavaScript-based framework combining Cucumber and Playwright for end-to-end testing with Gherkin syntax.

[cucumber_playwright_typescript](#): A TypeScript framework using Playwright and Cucumber, enhancing reliability and scalability with robust type-checking.

[facebookMarketplaceAdsAutomation](#): An automation project for managing and creating Facebook Marketplace ads, improving workflow efficiency.
